- Information Disclosure Citation PTO-1449
- Notice of Informal Application, PTO-152
- Notice re Patent Drawings, PTO-948
- Listing of Bonded Draftsmen
- Other

REASONS FOR ALLOWANCE

The following is an Examiner's Statement of Reasons for Allowance:

Applicants' detailed comments regarding the meaning of the claimed terminology in view of the invention described in the specification and contrasted with the applied prior art has been persuasive to imply that the storage of interpretable programs and presentation data for display on the local system, and which may be called on for the execution of an application on the system, may be stored locally during and between sessions based on control parameter associated with the stored objects which control such storage, as described and developed throughout the history of the application.

The submitted "Use Information" has been considered in association with applicants' comments. It is noted that the references to the great-grandparent and grandparent applications (e.g., serial numbers 07/219931 and 07/328790) show the effective filing date of the general subject matter of the present claims to have been within one year of the second phase of testing referred to therein (i.e., October 1987-March 1988). No determination was made with respect to the first phase of the testing (i.e., January 1987-September 1987) since there is insufficient information regarding the specific arrangements with the outside consultants, their identity, their relationship to the project and any *quid pro quo*. It is noted that applicants have also referred to the source code in their response, but due to its size and complexity, it has not been separately reviewed.

Any comments considered necessary by applicant must be submitted no later than the payment of the Issue Fee and, to avoid processing delays, should preferably **accompany** the Issue Fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry of a general nature or relating to the status of this application should be directed to the Group receptionist whose telephone number is (703) 305-9600.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to David L. Robertson whose telephone number is (703) 305-3825.

A handwritten signature in black ink, appearing to read 'D. L. Robertson', followed by a long horizontal line extending to the right.
